AWWAM MESSAGE

PROTECT OUR RIVERS

Pollution Prevention Starts with Us

Clean rivers begin with responsible actions at our workplaces and homes. Rainwater can carry litter, oil and chemicals from exposed surfaces into waterways. Preventing pollution at its source helps protect water quality and aquatic life.

💧 KEEP DRAINS FREE FROM POLLUTION

Never pour oil, paint, solvents or chemical waste into drains.

♻️ MANAGE WASTE RESPONSIBLY

Segregate waste and use designated collection and disposal channels.

🛢️ PREVENT LEAKS & SPILLS

Keep containers secure and report signs of leakage promptly.

🌱 MAKE EVERYDAY ACTIONS COUNT

Keep outdoor areas clean and prevent loose waste from entering drains.

- Protecting our rivers is a shared responsibility.
- Small actions today help safeguard tomorrow's water.
